

# Patient Tracker Applications

by György Korek

Simple. Anywhere. Anytime.

Purpose of the application: Management of administration and minimization of investment time. In a single system with easy to use user interface, simplified. Significantly simplify the work of Key Account Manager. Can be used on laptop, phone, tablet.

# Patient Tracker Applications

Simple. Anywhere. Anytime.

by György Korek

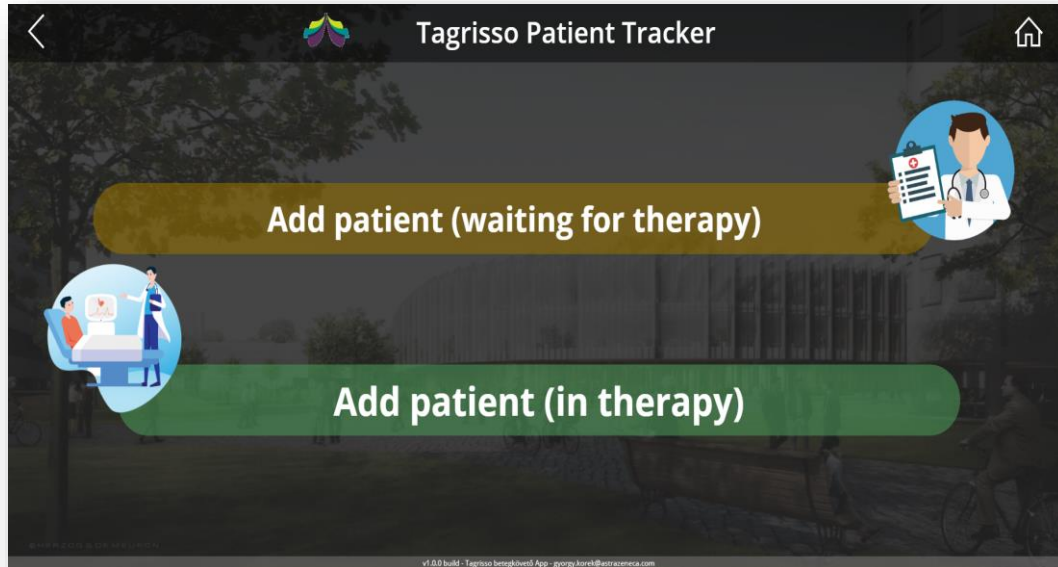

# The homepage of the application

# Add a patient page:

The screenshot shows the 'Add patient (waiting for therapy)' form. The title bar is dark with a close button (X) on the left, a home icon, a logo, and a checkmark on the right. Below the title bar is a red warning bar that says 'Fields marked with \* are required. Otherwise, they cannot be saved.' The form consists of several input fields with dropdown menus: 'Institute:' (required), 'Doctor:' (required), 'Status:' (required), 'Line:' (required), 'Request type:' (required), 'EGFR status:' (required), 'KAM:' (required), 'E-tool ID:' (required), 'EGFR type:' (required), 'EMK submission:' (with a date picker showing 2001/12/31), and 'Mixed: (optional)'. Each field has a 'Select from list' prompt and a dropdown arrow. The background of the form is dark with a faint image of a park.

Simple filling interface, with predefined dropdown lists, I/O buttons.  
There are required fields, without the patient's therapy cannot be recorded. (\* fields)

v1.0.0 PRESENTATION build - Tagrisso Patient tracker App - gyorgy.korek@astrazeneca.com

- Shows active therapies by default.
- Alternatively, the selector can also be used to list stopped and not started therapies.
- Shows the following:
  - Where the patient is treated. The treating doctor. The name of the competent KAM.
- With the „Request date” button, KAM can record a visit directly.

# The appearance of discontinued therapies:

© 2019 AstraZeneca  
v1.0.0 PRESENTATION build - Tagrisso Patient tracker App - gvorgy.korek@astrazeneca.com

- KAM can record the dates of treatment received by the patient and the dates of submissions
- Added visits on the surface are highlighted in green.

# Stopping therapy

- Simple interface. If the modifier selects side effects as the reason for stopping, the system sends an automatic message to the safety manager, with the details of the therapy

✕ Terápia leállítása

ID: 79

\* Therapy status:  
Stopped ✓

\* Reason for stopping:  
Side effect ✓

\* Stopping date:  
2020/03/19

As a side effect, an automatic email will be sent from your account to the Safety manager.

You have selected the adverse event / side effect / special case option. If there is a real case, please report it online within 24 hours:  
<https://aereporting.astrazeneca.com/home.html> , or by email to [SAEreport.HU@astrazeneca.com](mailto:SAEreport.HU@astrazeneca.com).

Az összes mellőzése

- The system sends a meeting invitation to the competent KAM 7 days before to the visit.
- So there is enough time for the KAM to prepare.
- The invitation contains basic information. As well as the application link.

Még nem küldte el ezt az értekeztet-összehívást.
